

SK221

PCIe/104(StackPC) MXM Carrier Module

Safety information

Electrical safety

- To prevent electrical shock hazard, disconnect the power cable from the electrical outlet before relocating the system.
- When adding or removing devices to or from the system, ensure that the power cables for the devices are unplugged before the signal cables are connected. If possible, disconnect all power cables from the existing system before you add a device.
- Before connecting or removing signal cables from the motherboard, ensure that all power cables are unplugged.
- Seek professional assistance before using an adapter or extension cord. These devices could interrupt the grounding circuit.
- Make sure that your power supply is set to the correct voltage in your area.
- If you are not sure about the voltage of the electrical outlet you are using, contact your local power company.
- If the power supply is broken, do not try to fix it by yourself. Contact a qualified service technician or your local distributor.

Operation safety

- Before installing the motherboard and adding devices on it, carefully read all the manuals that came with the package.
- Before using the product, make sure all cables are correctly connected and the power cables are not damaged. If you detect any damage, contact your dealer immediately.
- To avoid short circuits, keep paper clips, screws, and staples away from connectors, slots, sockets and circuitry.
- Avoid dust, humidity, and temperature extremes. Do not place the product in any area where it may become wet.
- Place the product on a stable surface.
- If you encounter any technical problems with the product, contact your local distributor

Revision History

| Revision | Date (dd.mm.yyyy) | Changes |
|-------------|-------------------|-----------------|
| Version 0.9 | 23.03.2017 | Draft |
| Version 1.0 | 14.06.2017 | Initial Release |

Packing list

- SK221
- SK220-1
- Manual CD
- Screw Package

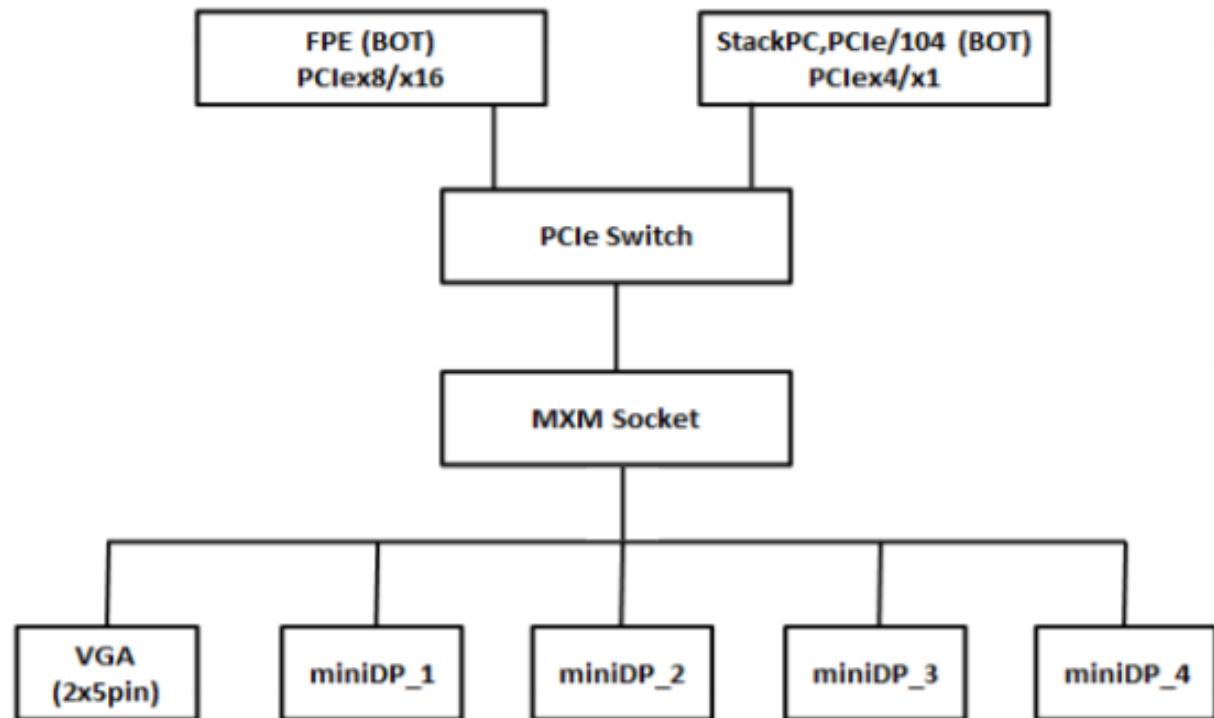

If any of the above items is damaged or missing, please contact your local distributor.

Chapter 1: Product Information

1.1 Block Diagram

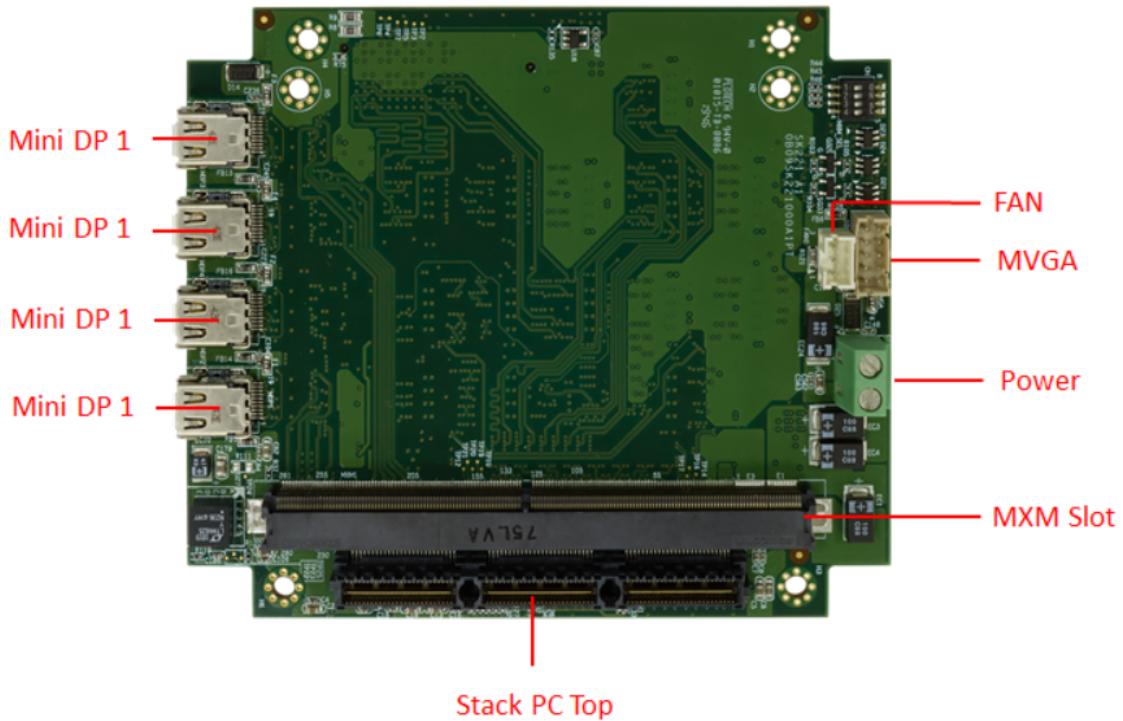

1.2 Key Features

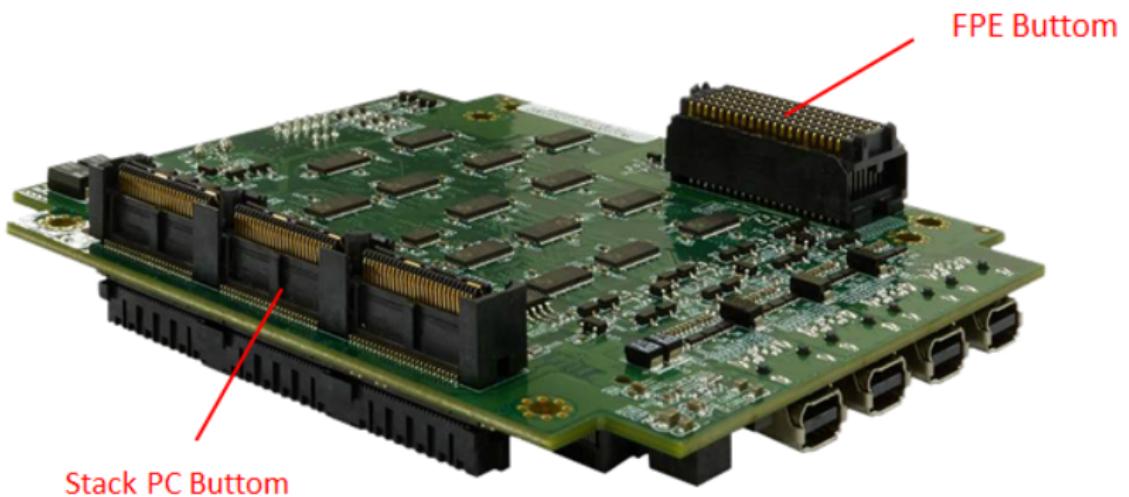

| Specification | |
|-----------------------|--|
| Function | PCIe104-FPE MXM Graphic Card Carrier |
| Signal Interface | PCIe Gen.3 x16/ x8/ x4/ x1 |
| MXM version | Support MXM 3.0/3.1 |
| Top Side I/O | PCIe104 Connector (Top) MXM Slot 1 x VGA (Pin Header) 4 x miniDP Port |
| Bottom Side I/O | PCIe104 (Bottom/Top) FPE (Bottom) |
| Operating Temperature | Extended Temperature -40 to 85°C |
| Dimension | 96 x 115 mm |
| Power Requirement | 12V DC-IN (non power can support up to 120W) |

1.3 Board Placement

1.3.1 SK221 Top Side

1.3.2 SK221 Bottom Side

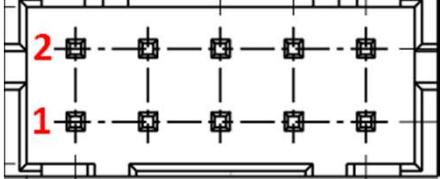

Chapter 2: Onboard Connector and Switch

1. Connector

1. MVGA Connector

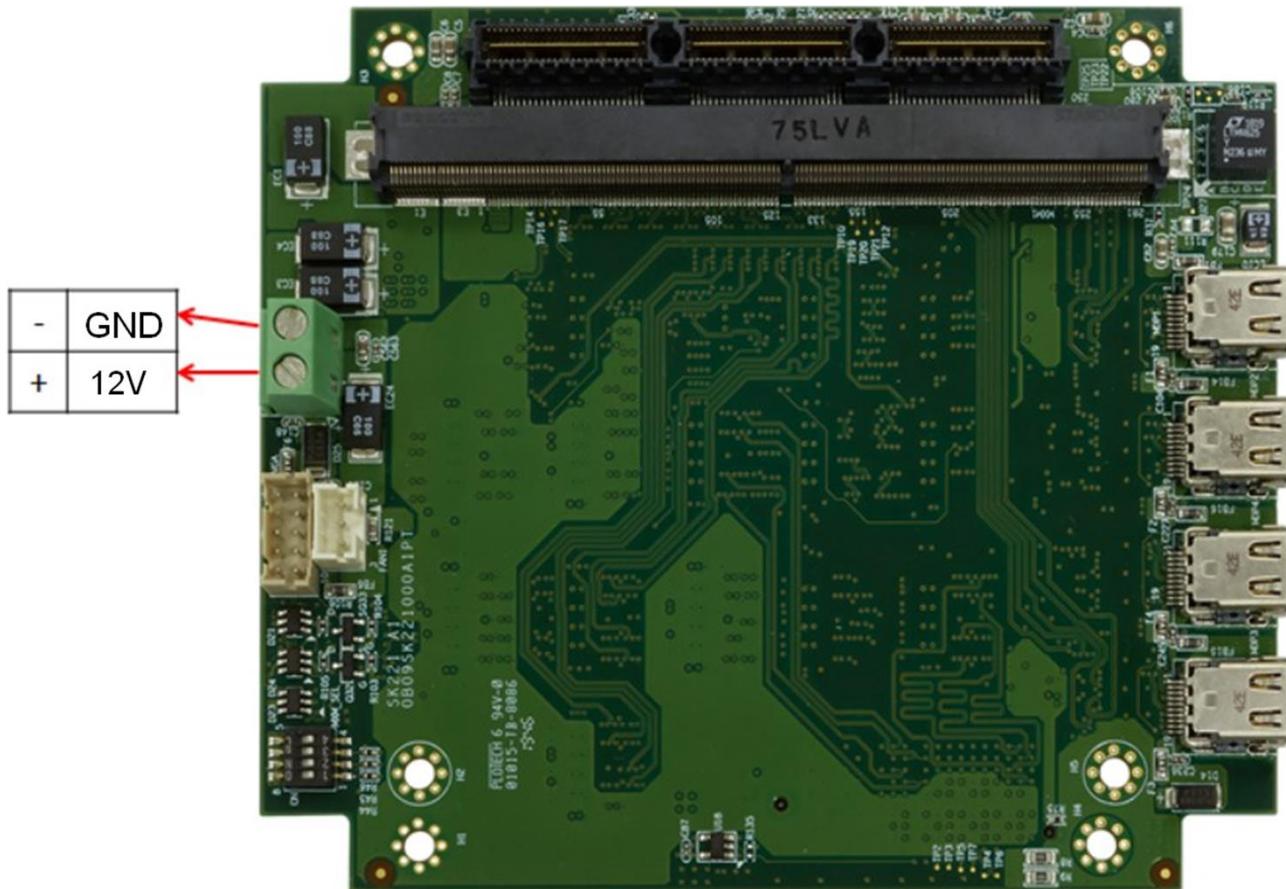

2*5P 180D P:2.0mm [E.I.C. 0110-02-163-100]

| VGA | | | |
|-----|------------|-----|------------|
| Pin | Definition | Pin | Definition |
| 1 | RED | 2 | PWR |
| 3 | GREEN | 4 | GND |
